Niven Fischer Engaged to Manage the Napa Energy Limited Partnership

Niven Fischer is pleased to announce that the Company has been engaged by Napa Energy Ltd. (the “General Partner”) to manage the ongoing business affairs and to develop new business opportunities for the Napa Energy Limited Partnership (the “Partnership”) effective May 1, 2009.

The Partnership has approximately 20 boe per day of non-operated production in Alberta, has a license to approximately 3,000 km² and 600 km² of 3D seismic data in Alberta and B.C. respectively and a license to 427 km and 198 km of 2D seismic data in Alberta and B.C. respectively. In addition, the Partnership has in excess of 27,500 net acres (average working interest 89%) of undeveloped land focused in the Alberta Eastern Montney fairway, the North Peace River Arch and the Ansell/Crystal/West Pembina fairway.

The Niven Fischer mandate is to assist the General Partner in its duties and responsibility of managing, controlling and operating the business and affairs of the Partnership and when delegated, act in the place of the General Partner. Business affairs include the day to day operations as well as identifying opportunities to maximize the return to the limited partners.

For further information, please contact Randy Green (403-290-1900 ext. 224) or Dave Bardwell (403-290-1900 ext. 241).
